

ICEM Parking Lot Expansion Project Plan

→ Why Are We Doing a Parking Lot Expansion?

Alhamdulillah with your generous donation last year, Islamic Center of East Madison was paid off and at the same time we are all experiencing a parking issue during our Friday Jumah's prayer. During the summer we are able to park on the grass area while we are destroying our landscape. We are in serious needs for parking expansion for the following reasons:

- a. Our community is fast growing and we need to accommodate everyone
- b. Our neighbors are suffering with business cancellation on Fridays that resulted in 2 calls to the police to file complaint.
- c. This expansion will add 69 more parking spaces to our existing parking lot.

After a series of meeting with Quam Engineering Firm and Tri-County Paving Company, we have an estimate of \$350,000 to complete the project in phases because we need to raise enough money to start the project.

No fundraising activity has been done in the masjid since last payoff fundraising and we need everyone to come strong for the project. Our goal in this is to collect \$350,000 to start and finish this project before next winter.

→ What is our Approach:

The way we will approach this fundraising is to almost target as many families or individuals as possible and asking a donation of \$1000 or more if possible.

Donation can be made by in one payment or installment:

- Cash
- Check
- Online with Mohid
- ACH/Direct deposit from your bank

All the donations will be managed in transparent manner to our mosque management team as well as the community. A full report will be posted and announcement will be made for this fundraising activity.
